Horizontal & Vertical Fixed Beam Automatic Levelling Lasers

The DATUM DPL1 Cross Line Laser is a fully automatic levelling model, making setups as easy as placing the DPL1 on a suitable surface or tripod, pressing the ON button and away you go!

With advanced features such as switchable beam modes, you can set the DPL1 to project its bright, sharp visible red beams in just horizontal, just vertical, or both horizontal and vertical beams together.

The DPL2 has a switchable PULSE beam mode, which enables the Laser beam to be picked up by a compatible PULSE beam Laser Detector.

Specifications - DPL1 / DPL2

Laser Diode	635nm Class II
Operation Time	Up to 20hrs (Alkaline)
Weight	0.5kg
Auto Level Range	±6°
Accuracy	±3mm per 10m
Range	Approx 10m
Dimensions	77 x 54 x 84mm
Warranty	2 Year Parts RTB Type

DPL2 ONLY - Pulse Capability

Measuring Range	Up to 30m with Datum Pulse Detector
